- Augustus Hickman

"My favorite field trip was going to Wheeler Farm in preschool. I love animals and being close to them."

Advice for future 5th graders:
 "Fifth Grade isn't as hard as everyone thinks. Although at some moments you might feel confused and totally don't understand what is going on, your teacher will help you and make you feel like there is nothing hard about your task. One thing that is really important in fifth grade is to apply what you already know how to do. If your teacher puts a problem on the board that you have no idea how to figure out, take a minute and apply what you know. You will learn a lot and have a lot of fun following this advice. Don't be nervous!"

- Lily Scaife

"My favorite field study was in fourth grade when we went to Timpanogos Cave. It was a great hike with some amazing views. My favorite thing was in the caves. There were so many caverns and high ceilings. It was just amazing."

- Dagny Brickson

Advice to RH students:
 "Be yourself. It's not like someone can change who you are."

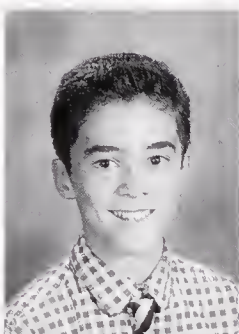

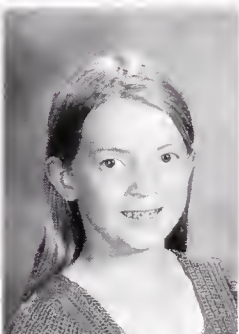

- Katie Moore
